## digital physician scales

THE RICE LAKE 150-10 DIGITAL PHYSICIAN scale series is designed for both modern appearance and contemporary function, with fresh, clean lines and forward-thinking features for the medical and fitness environments of today and tomorrow.

The series includes eye-level and floor-level models that contain features that prepare you for the future requirements of electronic medical record keeping by letting you easily transmit scale data to external devices.

Large push-button display lights up for easy viewing and an audible beep sounds at the end of each weigh cycle. Add to that a 550lb capacity and exclusive Motiontrap™ movement compensation technology, and these Rice Lake models are the most accommodating physician scales on the market.

|                    |               |
|--------------------|---------------|
| <b>Capacity</b>    | 550lb (250kg) |
| <b>Graduations</b> | 0.2lb (0.1kg) |

## mechanical **physician** scale

THE RICE LAKE MECHANICAL Physician Scale features a dual die-cast beam for weighing up to 440 lb (200 kg). The weight can be read from either the front or back. The scale base is designed with a removable slip-resistant base cover for easy cleaning.

The standard height rod measures 24 inches (60 cm) to 84 inches (212 cm). Durable, accurate and easy to operate, move, and store, the Rice Lake Mechanical Physician Scale is ideal for use in clinics and hospitals.

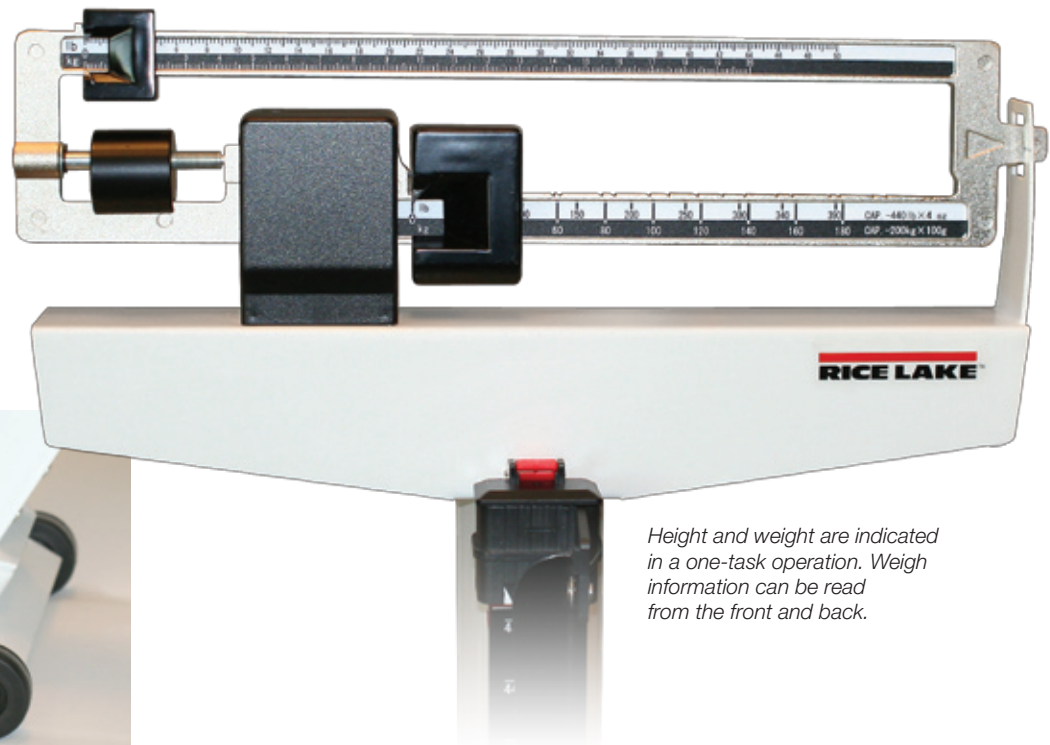

|                    |                  |
|--------------------|------------------|
| <b>Capacity</b>    | 440 lb (200 kg)  |
| <b>Graduations</b> | 0.25 lb (0.1 kg) |

### RL-MPS Standard Features

- Dual-read capacity 440lb x 0.25lb (200kg x 0.1 kg)
- 10.75 in W x 14.75 in L platform
- Retractable aluminum height rod
- Sturdy enameled steel body
- Die-cast beam
- Rugged scale understructure
- Removable slip-resistant base cover
- Easy operation with two sliding weights
- Rear wheels for ease of portability

### Warranty

Two-year limited warranty

*Heavy-duty wheels allow easy portability of the scale.*

*Height and weight are indicated in a one-task operation. Weigh information can be read from the front and back.*
